Computer Science: Faculty

- Currently, the institution has **82** full-time teachers, and **78%** of them have an overseas academic background.
- There are also **10** bi-base teachers.
- The male-to-female teacher ratio is **65:17**.
- The average age is **39.2** years.

Growth trend of the number of full-time teaching and research posts from 2010 to 2022

02

Training Plan

Training Objective

This program aims to cultivate engineering and technical talents in the field of computer and electronic information who master the basic theoretical knowledge and skills of modern computer and electronic information, possess humanities and social science literacy, international perspective, professional ethics, and are familiar with China's national conditions and culture.

In the first two years, we will conduct extensive and specialized training, while in the second two years, we will delve into specialized learning in the fields of computer and electronic information.

We aim to cultivate students who can apply basic knowledge of natural sciences, computer and electronic information theory, and professional knowledge to solve engineering problems, possess good system analysis, development, and project organization and management abilities, as well as innovative and continuous learning abilities.

Training Requirements

Graduates of this program should have a systematic grasp of the basic theories and technologies of computer and electronic information, as well as good humanistic and artistic cultivation and Chinese cultural knowledge.

They should receive basic training in the development, design, and application of software and hardware systems, scientific research, and engineering practice in the field of computer and electronic information, and have the ability to engage in research, design, development, debugging, and engineering applications in computer and optoelectronic information, and has good ability to analyze and solve practical problems.

Years of Education, Degree Awarded, and Graduation Requirements

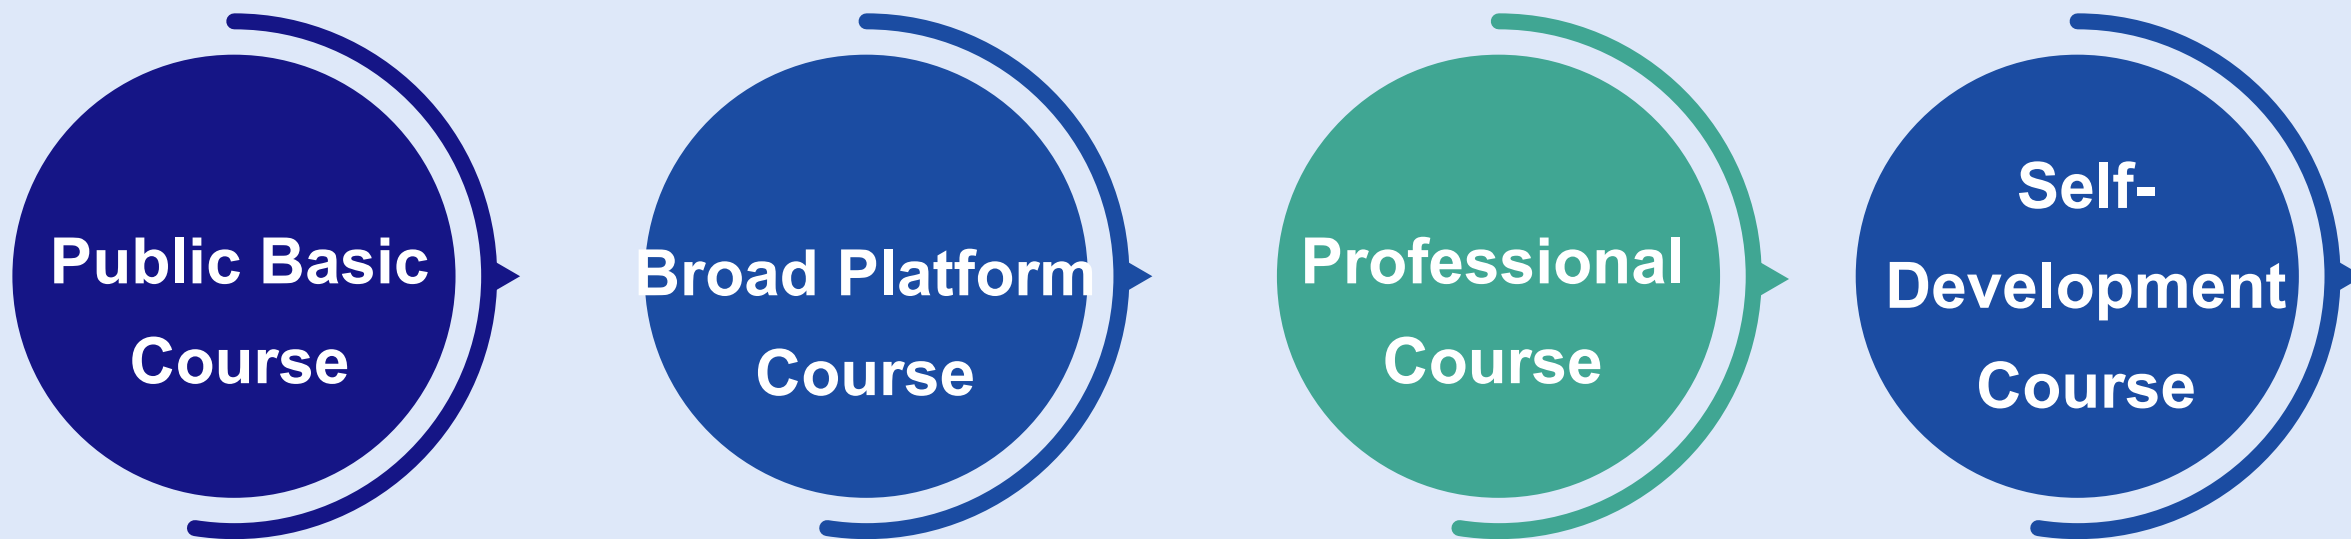

Computer Science and Technology

Length of study: three to six years (standard duration: four years)

Degree awarding: Bachelor of Engineering

Graduation requirements: Students in this program should meet the requirements set by the school for undergraduate graduates, complete all course learning and practical training as stipulated in the training plan, pass the defense of their graduation thesis (design), and complete 115 credits before graduation can be granted.

Academic Guide for 2024 International Undergraduate Students

Department of Academic Affairs

- The course for 2024 Fall will start on September 13, please attend classes on time according to the class schedule.
- The learning journey is about to begin! Are you looking forward to your first class?
- Please check out this Academic guide!

01 Undergraduate Programme

The undergraduate programme is a guide for the cultivation of students, which introduces Objectives, Learning Outcomes, Study Length, Degree, Graduation Requirements, etc. According to the requirements of the latest undergraduate programme, the credit requirement for graduation is 110-115.

The curriculum structure for international undergraduate students includes: Public Courses , School Package, Major Courses and Independent Development Courses.

View class schedule: click the button of “class schedule” on the homepage

The screenshot shows the '2023 Fall class schedule' page. It features a table with columns for days of the week (Mon, Tue, Wed, Thur, Fri, Sat, Sun) and rows for time slots (1, 2, 3, 4, 5, 6, 7, 8, 9). The table lists various courses and their instructors. For example, on Monday, there is a 'Physical Education C' class at 10:30 and a 'Principles of Communication' class at 14:00. On Tuesday, there is a 'Digital Signal Processing' class at 10:30 and a 'Principles of Communication' class at 14:00. On Wednesday, there is a 'Multimedia Technology' class at 10:30 and a 'Principles of Communication' class at 14:00. On Thursday, there is a 'Digital Signal Processing' class at 10:30 and a 'Principles of Communication' class at 14:00. On Friday, there is a 'Multimedia Technology' class at 10:30 and a 'Principles of Communication' class at 14:00. On Saturday, there is a 'Situation and Policy' class at 14:00. On Sunday, there is a 'Principles of Communication' class at 14:00.

Time	Mon	Tue	Wed	Thur	Fri	Sat	Sun
1 8:30			Principles of Communication (WuJianKui) [1.5 / Week] [15.00]				
2 9:20			Principles of Communication (ZhangYingJie) [1.5 / Week] [15.00]				
3 10:30	Physical Education C (ZhangYingJie) [1.5 / Week] [15.00]	Digital Signal Processing (ZhangYingJie) [1.5 / Week] [15.00]	Multimedia Technology (WangYingJie) [1.5 / Week] [15.00]	Digital Signal Processing (ZhangYingJie) [1.5 / Week] [15.00]	Multimedia Technology (WangYingJie) [1.5 / Week] [15.00]		
4 11:20							
5 14:00	Principles of Communication (ZhangYingJie) [1.5 / Week] [15.00]				Situation and Policy (ZhangYingJie) [1.5 / Week] [15.00]		
6 14:50	Principles of Communication (ZhangYingJie) [1.5 / Week] [15.00]						
7 16:00	Introduction to Machine Learning (ZhangYingJie) [1.5 / Week] [15.00]	Digital electronic technology foundation (ZhangYingJie) [1.5 / Week] [15.00]	Introduction to Machine Learning (ZhangYingJie) [1.5 / Week] [15.00]	Digital electronic technology foundation (ZhangYingJie) [1.5 / Week] [15.00]			
8 16:50		Digital electronic technology foundation (ZhangYingJie) [1.5 / Week] [15.00]		Digital electronic technology foundation (ZhangYingJie) [1.5 / Week] [15.00]			
9							

- Please attend the class on time according to the class schedule.
- Students who do not attend classes on time or accumulate unauthorized absence of more than 1/3 of the total class hours will be canceled the examination qualification and make-up examination qualification, and the transcript will be marked as "cancel the exam qualification."

How to select undergraduate courses online?

Some details explanation for the timetable.

12 18:30 - 19:00							

The same color refers to the same course

The grey color in the weekly personal schedule means the course will begin next week

How to select graduate courses online?

Some details explanation for the timetable.

It means you'll take this class from 7th week to 14th week

02

How to check your schedule with the APP ?

Step 1: Download the APP

For iPhone user:Download from the APP store

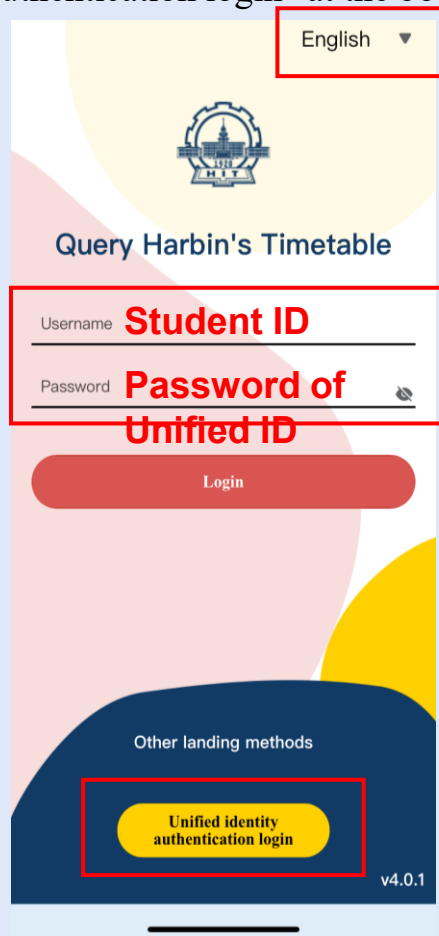

For Android user:

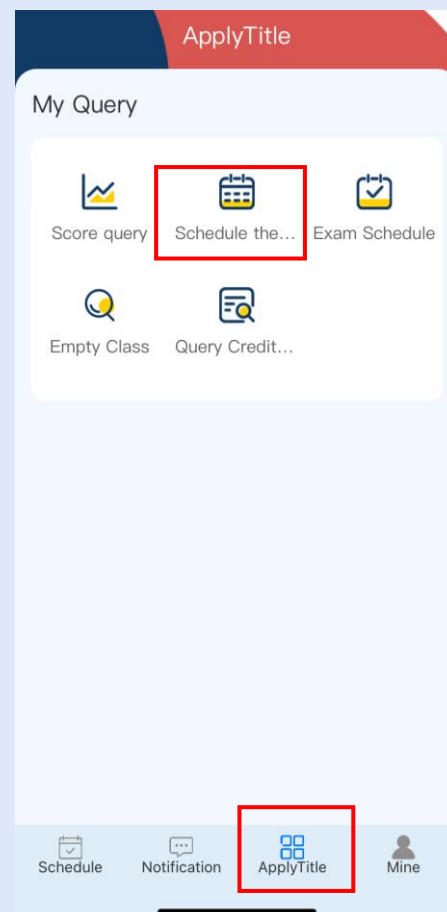

Input the following address in your phone's browser to download

https://mjw.hitsz.edu.cn/byyfile/byjw_v4.0.0.apk

Step 2: Change the language to English and click “Unified identity authentication login” at the bottom

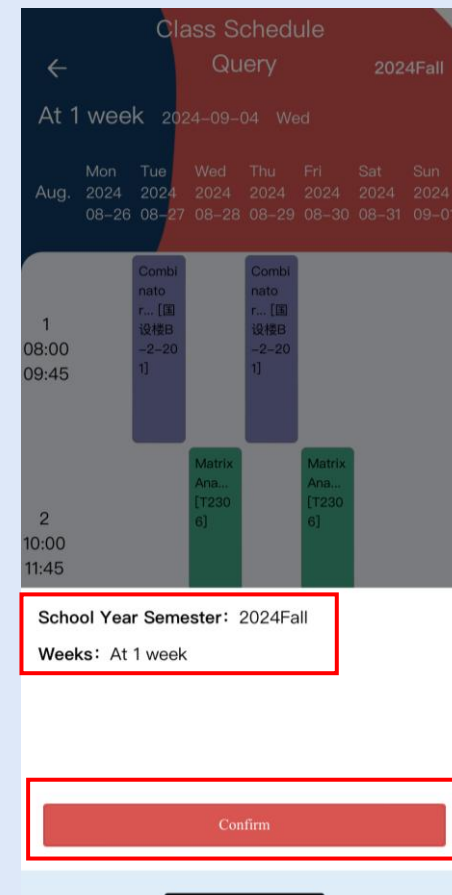

Step 3: Click “ApplyTitle” at the bottom and click “Schedule”

Step 4: Click “2024Fall” to change the Semester and Weeks

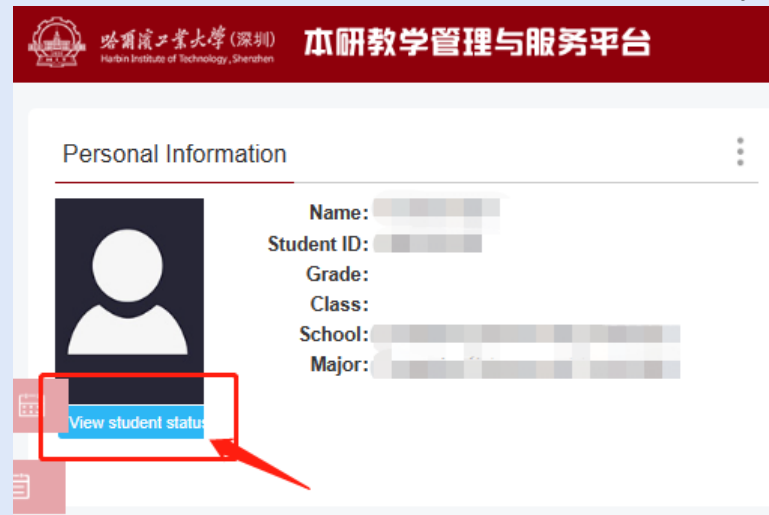

Step 5: Chose the semester and weeks you need,and click confirm at the bottom

03 Update of school registration information

From September 15th to September 30th, please log in the management and service platform (<http://jw.hitsz.edu.cn>) , and click on "check the student registration information", check and modify personal information.

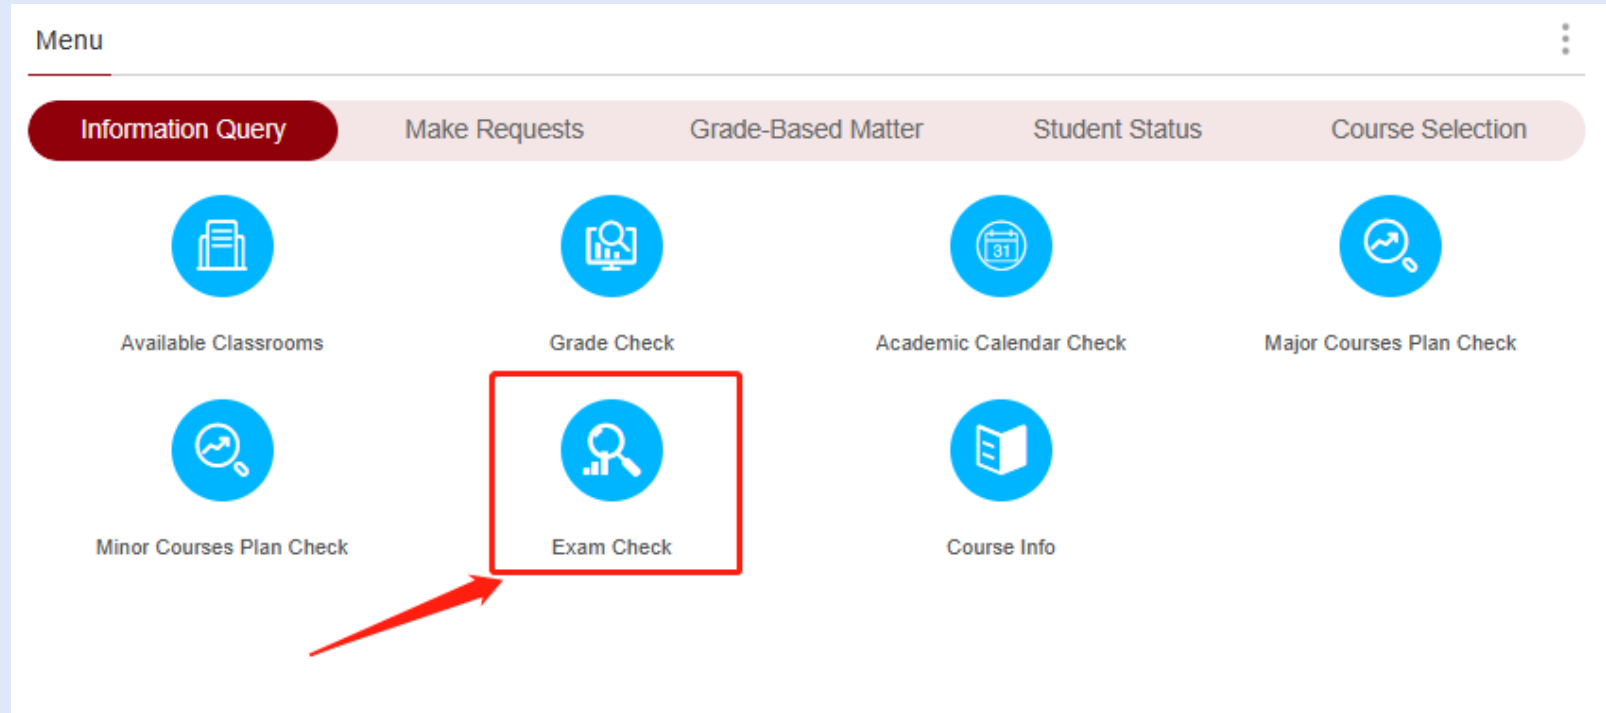

The screenshot displays the 'Personal Information' section of the Harbin Institute of Technology (Shenzhen) management and service platform. The header includes the university's logo and name in Chinese and English, along with the platform title '本研教学管理与服务平台'. The main content area shows a profile picture placeholder and a list of personal details: Name, Student ID, Grade, Class, School, and Major. A red box highlights the 'View student status' button, which is located below the profile picture. A red arrow points to this button.

1. Check the student registration information: name, gender, nationality, ID number, date of birth, school, major and other such fields can not be edited by yourself, if you find any errors, please send an e-mail (must be accompanied by relevant proof) to zouyueli@hit.edu.cn, Contact Tel: 0755-86716144.
2. Modify personal information: please check the enrollment photo and add personal information such as religion, telephone number, Email, and Current Address. (If there is any error with the enrollment photo, please contact Ms. Zhang from the Department of Academic Affairs, Email: zhangping@hit.edu.cn)

04

Exam and Grade Related

view exam information: click the button of “Exam Check” under the menu of "Information Query "on the homepage

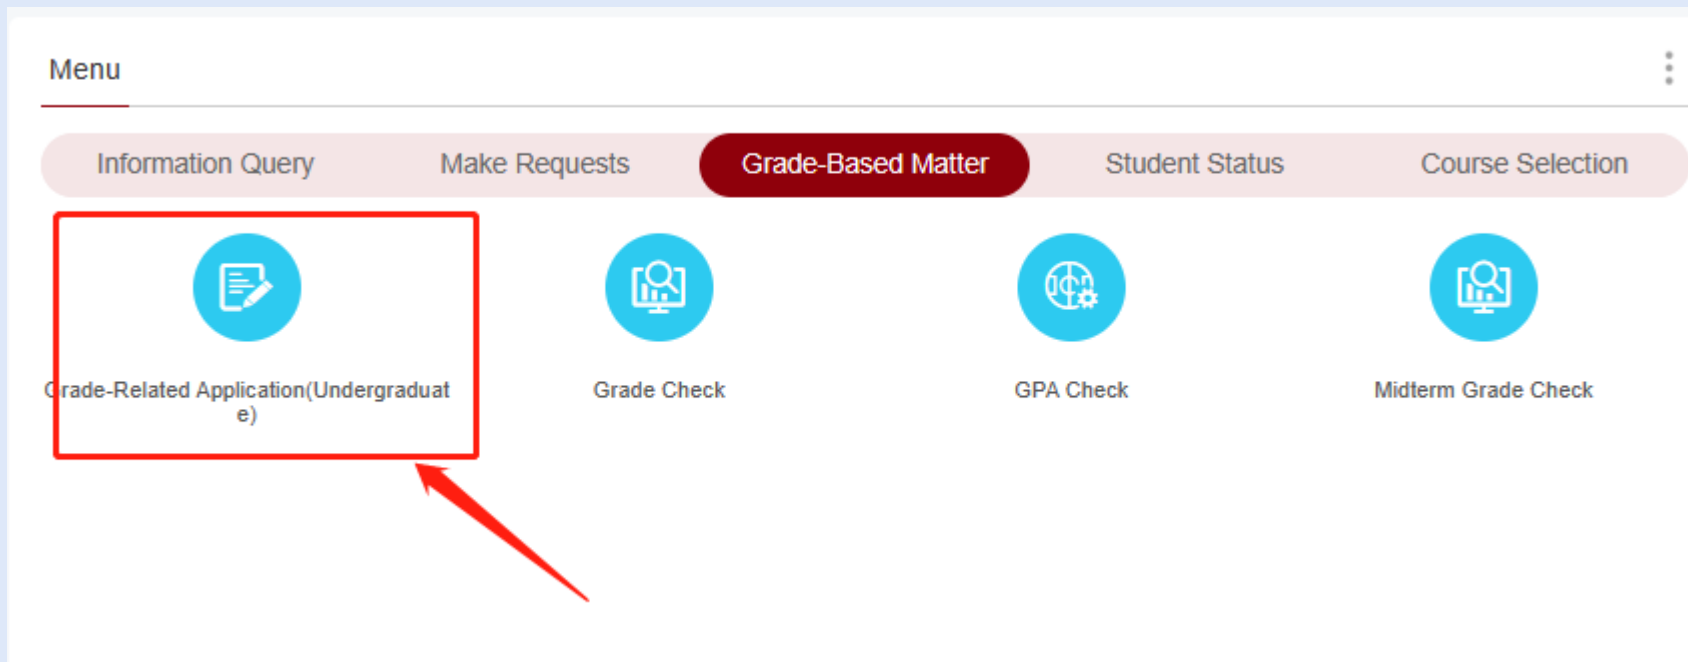

- Please attend the test on time according to the test schedule.
- If students are absent from the examination, the transcript will be marked "absence," and the make-up examination qualification will be canceled.

04

Exam and Grade Related

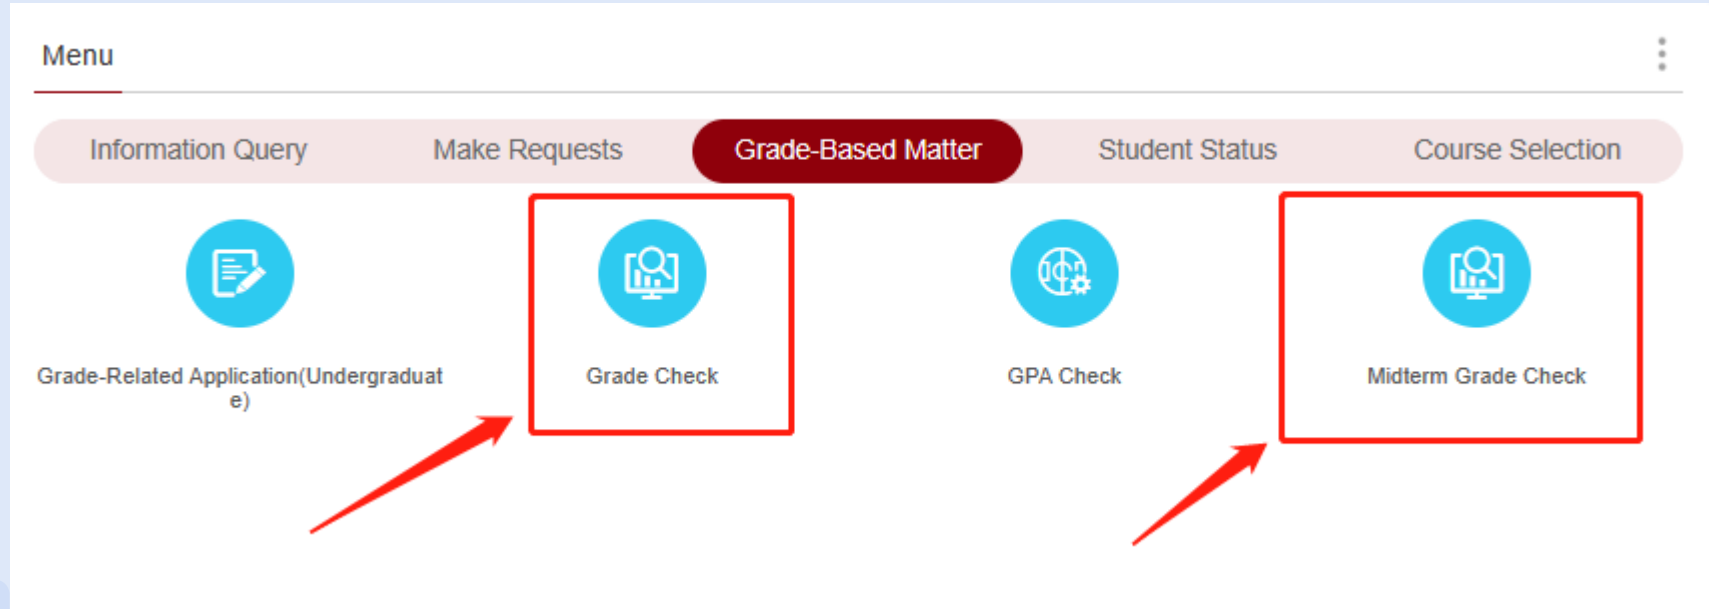

- Students who fail to attend the exam due to illness or a particular case can apply for a delayed examination.
- If a student has questions about the results of a specific course, he/she can apply for review of the examination papers within 5 working days after the results are announced.
- the way for application: click the button of "grade-Related Application" under the menu of "Grade-Based Matter" on the homepage, and query the review progress in the process of "student grade review application progress."

04

Exam and Grade Related

view grade: click the button of “Grade Check” under the menu of "Grade-Based Matter "on the homepage

Students who fail the exam are required to take “Pre-calculus” in the first semester.

Here is the textbook of “Pre-calculus” ,you can purchase it by yourself at the following website.

course title	website
